

SMF Forum Mods.

How to change the title font colours from Orange to grey/blue.

In Cpanel select the file manager and navigate to
/public_html/smf/Themes/default/css

edit

/public_html/smf/Themes/default/css

Edit index.css

From your browser

Find #d97b33 this is the orange font colour

Replace this with a suitable colour #26507f swatch colour grey/blue

Looks quite nice

You can check swatch colours with

Swatch hex colours

<http://www.2createawebsite.com/build/hex-colors.html#colorscheme>

```
/* Styles for the board index.
```

```
----- */
```

```
/* the board title! */
```

```
.table_list tbody.content td.info a.subject
```

```
{
```

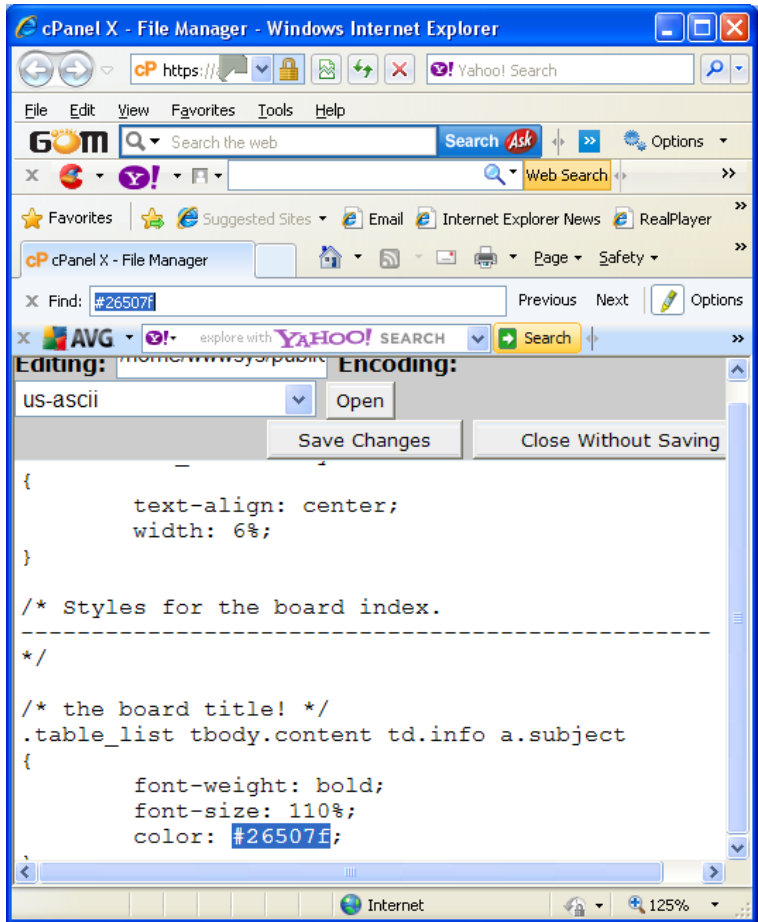

```
    font-weight: bold;
```

```
    font-size: 110%;
```

```
    color: #26507f; (now blue/grey). This was #d97b33 (orange)
```

```
}
```

```
.table_list tbody.content td.children
```

Save the file
